Assignment Overview

- Today you are going to work on CONTROL.
- Here are the three CONTROL tips that I want you to practice today:
 1. Stay in a Horse Stance when you punch.
 2. Arms should return to elbow position in between each punch.
 3. Keep your head up while you punch.

Section 2: Skill-building drill (Do three sets)

- Don't knock the pillow: Place a stack of pillows in front of you. You will build your CONTROL by front punching a target above the pillows, while not hitting the pillows that are stacked below. *(Parent or Family member holds the target)*
- Super statue: You will practice having control of your body by running and jumping over a pillow and then freezing into a Horse Stance with hands in elbow position.

Section 3: Dynamic stretches

- Middle splits push-ups 10 times - Go to a middle split position with your hands between your legs. Move your hands forward into push up position. Perform a good push up, and then walk your hands back to the original starting position.
- Side leg swings 10 times - Stand with feet shoulder width apart. Keep your leg straight while you swing your leg to the side, as high as you can. Focus on not bending your knee.
- Inchworm hops 10 times - Stand with feet together. Walk your hand forward on the floor until you are in a push up position. Keeping your knees straight, hop landing with your feet between your hands. Focus on not lifting your hands off the ground when you hop.
- Ball roll 10 times - Sit with your feet in front, and knees bent. Hug your knees close to your chest. Without rolling over on your side, lean back and rock back and forth.
